Product Brochure

The High Density Drawer Cabinets are designed to meet the storage requirements of all industrial and commercial applications. The cabinets are fitted with double safety locking system, with an 200kg weight capacity and 97% opening scope they are designed to accommodate to all storage needs.

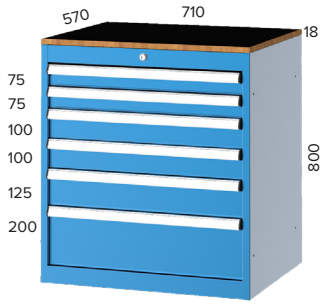

Cabinets are manufactured from heavy sheet steel. All external steel parts are coated in a rust-resistant powder-coated finish available in many different heights and are customisable.

Drawers are manufactured from heavy sheet steel and have a rust-resistant powder-coat finish. All drawers use silent runners with roller bearings to ensure smooth, quiet operation. Drawer handles are made from high quality aluminium with replaceable label slides and a clear protector. Custom drawer sizes are available on application.

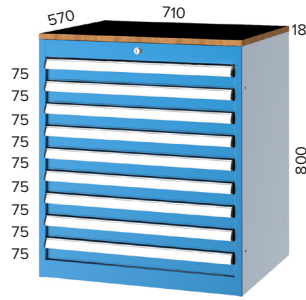

Cabinets feature an anti-tilt central locking system as standard. The anti-tilt mechanism only allows one drawer to be opened at anyone time, limiting the chance of cabinet roll-over. The locking system utilises a central locking bar at the rear of the cabinet, which prevents the chance of break-in. All cabinets are keyed differently for security. Master keys are available if required.

CNC Cutting and Shaping

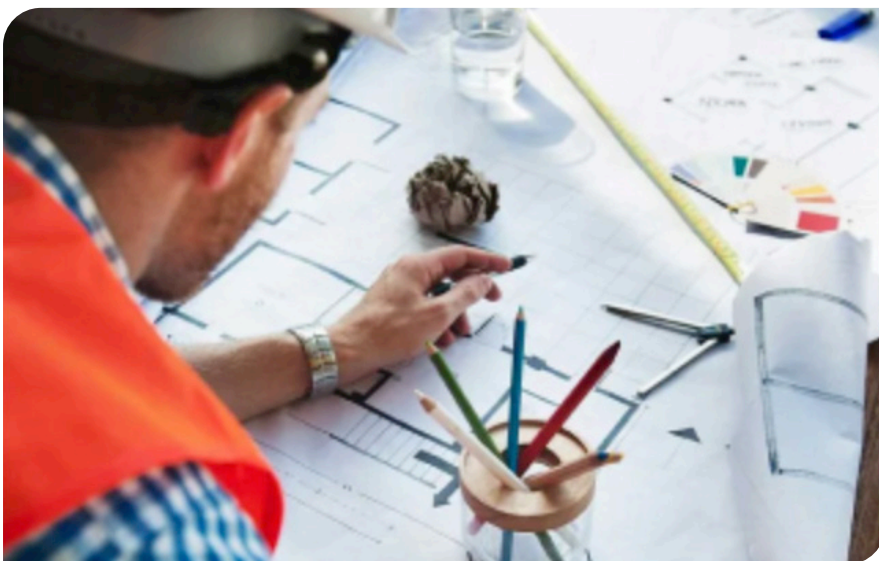

ACTIWORK Layout and design system providing solutions to all industries.

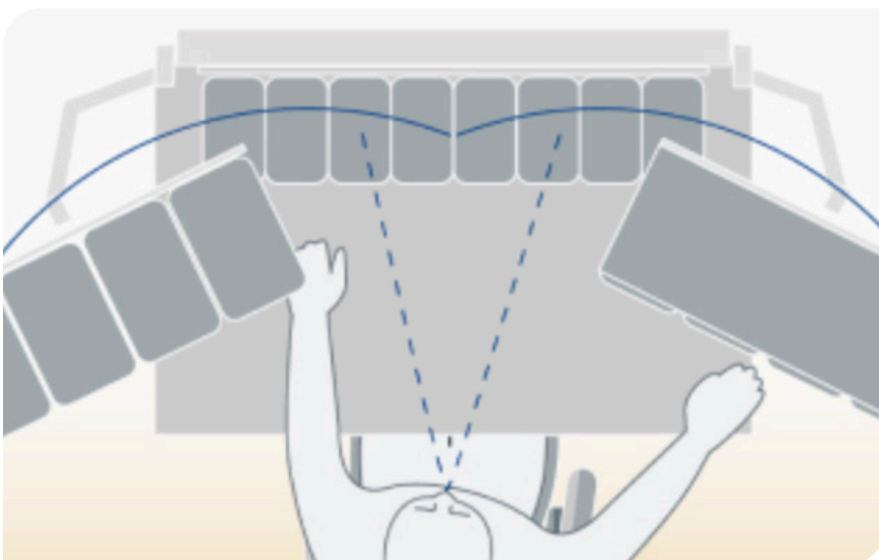

Designed to suit your unique requirements

//// Why Choose ACTIWORK?

/ Customised Solutions

No two customers have the same requirements. We customised our products and solutions to suit your business.

/ Ergonomics In Action

ACTIWORK Workplaces are designed to bring the human factor into your workspace.

/ Aussie Made & Supported

ACTIWORK not only supports the concept of Australian Made, but we use it wherever possible.

/ The Workplace Experts

ACTIWORK is a leading manufacturer and importer of industrial workstations and furniture. We provide industrial furniture and workstation solutions that enable our customers to secure their efficiency.

ACTIWORK Workshop solutions increase your workers' productivity, thereby increasing performance and ultimately leading to higher business profitability.

/ Our Process

Knowledge is the most essential ingredient, Our team handles everything from planning to launch - that's why our clients look so rested.

ACTIWORK sees the key feature of today's Business requirements and is offering solutions in a complete process, starting with design of products, custom suited to customer's needs, design and layout of workshops, factories, process lines and offices.

/ At ACTIWORK, Safety is Everything

We believe in an Incident and injury free environment on all worksites and when manufacturing our products.

ACTIWORK Consistently strives to meet or exceed all safety laws and regulations wherever we are to ensure our employees are able to arrive home each night safe and sound. process lines and offices.
